Danish Rehman

Full Stack Developer · Django · React · React Native

Gujranwala, Pakistan (Remote) · gdanish365@gmail.com · +92 324 9567570

danishrehman.vercel.app · linkedin.com/in/danishrehman-dev · github.com/danig365

SUMMARY

Full stack developer who builds production web and mobile applications end to end, from requirements and architecture to deployment and support. Shipped 8 live systems as the sole developer, including a behavioural health EHR, a multi-clinic appointment SaaS, a coaching platform and an e-learning platform with React Native apps, for clients in the US, France and Pakistan. Founder of PrimeCurve Solutionz. Open to full-time remote roles and freelance projects.

SKILLS

Backend	Python, Django, Django REST Framework, Node.js, Express, Celery, Redis, Django Channels / WebSockets, REST API design, JWT & MFA auth, RBAC
Frontend	React, TypeScript, JavaScript (ES6+), Tailwind CSS, Mantine, TanStack Query, Framer Motion
Mobile	React Native (apps sharing a Django REST API with the web platform)
Database	PostgreSQL, SQL, schema design, migrations, backups
Integrations	Stripe, Vonage (IVR / SMS / OTP), LiveKit & WebRTC, Google Calendar API, OpenAI & Claude APIs, Deepgram
DevOps	Linux VPS, Nginx, Gunicorn / Daphne, Docker, Git, Let's Encrypt, automated backups
Quality	pytest (1,700+ tests on SCMS), Playwright, audit logging, HIPAA-oriented security design

EXPERIENCE

Founder & Lead Developer · PrimeCurve Solutionz

Aug 2026 – Present

Own studio · Remote · Sole developer on a signed, phased development agreement

- **SCMS – Clinical Management System** for SYNERGY Recovery Institute (Washington DC): a behavioural health EHR, practice management and revenue-cycle platform; won as a repeat contract after delivering the client's coaching platform.
- Delivered Phases 1–3 to production with live patient records: patient records with a permanent MRN, multi-program enrolment, scheduling with a 9-status lifecycle, guided check-in, insurance with coordination of benefits, clinical documentation (90791 assessment, treatment plans with ICD-10, progress notes) and a supervision / co-signature engine.
- Built to HIPAA requirements: MFA, lockout, server-enforced idle timeout, 13 roles and 49 permissions, encryption in transit and at rest, and an immutable hash-chained audit trail.
- All 26 contract acceptance items verified by an automated end-to-end test within a 1,700+ test suite. Stack: Django, DRF, React + TypeScript, PostgreSQL, Redis, Nginx.

Software Engineer · Cognisol Technologies

Sep 2025 – Present

Full-time · Remote · Sole full-stack developer, reporting to the project manager and CTO

- **CogniPulse** (cognipulse.us): multi-clinic healthcare appointment SaaS with clinic admin, doctor and patient roles.
- Built phone booking with Vonage (IVR booking, SMS confirmations and reminders, OTP verification) and time-zone-safe scheduling across clinics, doctors and patients.
- Asynchronous reminders and notifications with Celery and Redis; deployed and maintained on a Linux VPS. Live with two clinics onboarded.

Full Stack Developer · **Softsolutionz** 2025 – Present

Contract · Remote · Solo developer on client products

- **Kannari Music Academy** (US): subscription e-learning platform with 5 roles, parent-consent workflow for minors, video/audio lessons, real-time chat and video calls, Stripe subscriptions, plus a React Native app on the same API. Built in ~5 months.
- **Popupplay**: location-based social platform with live map pop-ups (Leaflet), WebSocket messaging, WebRTC video calls, reels and payments (Node.js, Express, React).
- **AI Embroidery Files**: OpenAI image generation with a Stripe order flow delivering machine-ready embroidery files.
- **Gold Shop Ledger System**: replaced paper and Excel for a trading shop with multi-user ledgers, metal trading by gram/tola and karat, cash and bank books, PDF/Excel reports, and automated backups (Node.js, PostgreSQL, Docker).

Freelance Full Stack Developer · **Fiverr & direct clients** 2024 – 2026

- **Dr. Nath – Coaching for Impact** (dr-nath.com): all-in-one coaching platform and React Native app: Stripe booking with Google Calendar sync, LiveKit video sessions with AI transcription and summaries, AI assistant, e-signatures, form builder and real-time messaging. Built in ~4 months.
- **Makanzar Real Estate**: property listing platform for dealers with map search, filters, galleries and admin approval.
- Freelance work now continues under PrimeCurve Solutionz.

EDUCATION

BS Computer Science · **University of the Punjab, Gujranwala Campus** 2021 – 2025

Final year project: a Fiverr-style marketplace connecting customers with local home and commercial service providers.
